

# Queens Plaza Park

Queens, New York

Queens Plaza Park is slated to be the tallest residential mixed used high-rise in Queens, NY. The 978,000 sq. ft. tower will be constructed over 900 ft. tall. The foundation piles consisted of 90 drilled shafts containing over 1,000 tons of #28 Gr. 75 threaded bar cages fabricated by Nucor Skyline's Camp Hill, PA facility.
