

# City of Unalaska – UMC Dock

Unalaska, Alaska

## PROJECT PARTNERS

Contractor: Turnagain Marine Construction;

Engineer: PND Engineers

## PRODUCTS

PS 31 / 27.5 – 2,000 ton

The Unalaska Marine Center Positions III and IV replacement project required the fast track supply and installation of a 22-cell sheet pile bulkhead dock at the City of Unalaska's active container handling facility. The facility will handle thousands of tons of seafood cargo starting in February 2018, just 10 months after Turnagain Marine was awarded the project on a best value solicitation.
